

National Service Cooperative

PROVIDING SOLUTIONS TO YOUR TOUGHEST QUESTIONS...

Where can I get professional quality service for my food equipment?

How can I track my food equipment to maximize performance and minimize costs?

How can a planned maintenance program for my food equipment save money and down time?

How do I know I am buying the right equipment for my business needs?

THE NSC AND OUR SERVICE PARTNERS ARE THE EXPERTS IN PROVIDING YOU:

- ✓ Our Program Management Center (PMC): Offering a 24/7/365 Dispatching Call Center
- ✓ Software Asset Management: For both your equipment and service reports
- ✓ Project Management Programs: PM's, Installations, Roll-Outs, Retrofits, Refurbishings
- ✓ Consulting: Information provided by our "Membership Service Council"
- ✓ Parts Distribution: Member warehouses located throughout the country

OUR APPROACH TO PARTNERING

1. We begin by meeting with you to learn about your current facility management process
2. Next we'll ask about your areas of concern and priorities for improvement
3. We will then share ideas and concepts, creating a vision of what your solution should look like
4. Finally, your NSC team will develop a proposal which will bring your vision of a facility management solution to reality

THE NATIONAL SERVICE COOPERATIVE IS NOT A 3RD PARTY SERVICE BROKER. WE ARE OWNED AND OPERATED BY INDEPENDENT SERVICE COMPANIES, MANY OF WHO HANDLE YOUR SERVICE TODAY.
